6" CARBON COMPOSITE DIGITAL CALIPER

OPERATIONS MANUAL

SPECIFICATIONS:

Measurement Range	0.00" – 0.0" (0.0mm – 150mm)
Resolution	0.0001" / 0.01mm
Battery Specification	1x CR2032 3v Coin Battery
Operating Temperature Range	32 – 104°F (0 – 40°C)
Storage Temperature Range	-4 – 158°F (-20 – 70°C)
Screen Size	2.1" x 0.95"

1. Step Measuring Face

2. Internal Jaws

3. Display Housing

4. LCD Display

5. External Measuring Jaws

6. Depth Measuring Probe

7. Power on/off Button

8. Zero Setting / Rest Button

9. Units Inch / MM Button

10. Scale

For Battery removal and replacement:

WARNINGS:

Follow these safety precautions in order to avoid damage and ensure caliper stays Functioning optimally.

- DO NOT get calipers wet. Avoid coming in contact with any liquids or excessive humidity.
- DO NOT leave calipers exposed to excessive heat or direct sunlight.
- DO NOT disassemble or tamper with this device.
- DO NOT expose to electromagnetic fields.
- DO NOT ever apply any voltage on any part of the caliper and never use an electric pen or permanent damage may occur.
- Pull out the battery protector before use.

OPERATION:

1. Inner Distance Measurement

2. Outer Distance Measurement

3. Step Distance Measurement

5. Buttons

- 'mm/inch' is for metric and inch conversion
- 'ON/OFF' button is to turn on or turn off display
- 'ZERO' is to set the reading on display to be zero.

6. Zero Out Device before use - Caliper should be checked before each use to make sure that it is properly zero set. The reading should be zero when the external jaws are closed, otherwise press 'ZERO' to set zero reading. Open and close the external jaws to verify if reading return to zero.

7. Always apply constant force during measurement and zero setting.

4. Depth Distance Measurement

CARE AND MAINTENANCE:

After each use wipe clean with a soft cloth. DO NOT use any solvents to clean the device. DO NOT immerse in liquid of any kind.

If water damage causes the device to fail. Wipe off the liquid and make sure between the slide and scale is completely dry. Reset the caliper by removing the battery for 1 min. Reinstall the battery and turn on the device.

TROUBLE SHOOTING:

Problem	Action
Display does not show information	Check battery contact and battery health
Digits are not displaying correctly on screen	Reset the Device – Remove the battery for 1 min then reinstall and restart.
Digits are flashing on screen	Battery is low. Replace Battery

BATTERY REPLACEMENT & WARNINGS:

When digits are flashing on the LCD display this indicates that the battery power is low. Remove the battery and replace with a new battery. (Positive side facing up)

WARNIG: Follow all safety instructions below for handling and disposing of batteries.

- DO NOT Short circuit batteries.
- DO NOT keep batteries near excessive heat, fire or in direct sunlight.
- Remove batteries from device when not being used for long periods of time.
- NEVER handle leaking batteries and do not dismantle batteries.
- RECYCLE used devices and batteries via local electronics recycling facilities or means.
